Found on the Library's website under [Research/Resources: eBooks](#)

These are **FREE** library-provided resources for **electronic books**, to read on a computer or other device, and **audiobooks** for listening on a computer or other device. You must have a **valid library card** but you can get one for free.

Note: Digital titles are not available for download from Library public computers. You will typically download to your personal PC, laptop, or mobile device.

So what do I do first? First, for all of the resources we're covering today, you will need an Adobe ID. Here are the steps to getting one:

Step 1: Create a free Adobe ID

1. In your browser, go to www.adobe.com
2. Click **Sign In**
3. Then click **Get an Adobe ID**
4. Complete the registration
5. Write down your Adobe ID & password
6. When done, click **Create** and then **Continue**
7. Exit your browser.

This Adobe ID can be used in multiple platforms. For example, today we can use the same Adobe ID and password for Axis 360 eBooks and Enki eBooks.

enki library is a shared open source eBook Network that allows California libraries to own and store eBooks for access by library patrons; to share access to more content than any individual library can purchase on its own; to add features and functionality lacking in current third-party vendor models; and to share access to unique local digitized content with other libraries within the Network. A Califa project, this resource offers books from Independent book publishers such as: Algonquin Books, Booktrope, Northlight Books, and University of California Press.

Description
"A young woman named Kate explores her historical connection to the development of Freudian theory and the early beginnings of psychoanalysis in this mystery rooted in the past. Based on real facts concerning the pivotal figures in the development of modern psychology, the complicated lives of Sigmund Freud, his colleague Helene Deutsch, and his rival Victor Tausk are carefully reconstructed to show how their interpersonal intricacies may have led to conspiracy and deceit in the writing of early 20th-century history. When Kate realizes that Tausk was her grandfather, she begins to uncover the details around his mysterious suicide. Only as Kate uncovers the truth is she able to make important decisions about her own future."--
